

“As a faith based mental health center, Healing Grace counselors hope to help people access their spiritual awareness as part of the healing process. Our goal is not to take our faith to anyone, but to help each person discover his or her own. We believe that utilizing a balanced spirituality aids in the healing of all mental health and relationship issues. We also respect those who do not subscribe to any faith tradition.”

Tammy Jackson, M.S., M. Div., Licensed Psychologist & Founder
